

HOGS 5 TO 10 HIGHER

Better Supply and Better Quality Offered.

TOPS GO UP TO \$4.75

One Big Cattle Deal in Fine Feeders.

The hog market was a good 5 to 10 cents higher, with a much better run of hogs and the quality on the whole also very satisfactory. The market was wabbling and uncertain for some time after the opening, but it was always strong and the tone firm and decidedly active. There was a fairly good supply of wagon hogs in sight on the opening, and several trades were made at quotations about steady with Thursday's close, but after a period of varying values, the general trend of the rest of the day was at 5 to 10 cents higher, and at this time the market closed. There was spirited bidding all day and everything offered was eagerly taken by the buyers, all of whom wanted hogs, and would have been satisfied with anything acceptable, but especially was the demand made extra strong by the better grade of stock on sale. While nothing extraordinary was offered, yet the big end of all the hogs, especially the car hogs, were sold at good prices. The market was a good deal better than the week before. Two cars crossed the scales, besides a larger supply of country offerings. In all it was a very good day for buyers, and the feeling at the close was buoyant and more hogs would have been readily taken and at the same higher prices.

LIVESTOCK MARKETS.
CHICAGO, Nov. 18.—Receipts, 3,000; market generally steady to strong; natives, best on sale today, four cars at \$5.00; good to prime steers, \$4.95 to \$5.00; medium, \$4.90 to \$4.95; select 1 to 2-year-olds, \$4.95 to \$5.00; mixed steers, \$4.90 to \$4.95; cows, \$4.85 to \$4.90; calves, \$4.80 to \$4.85; hogs, \$4.85 to \$4.90; pigs, \$4.80 to \$4.85; sheep, \$4.80 to \$4.85; lambs, \$4.80 to \$4.85.

Chicago, Nov. 18.—Wheat was a weak market today, closing with a net loss of 1/4 cent as a result of bearish news. Corn closed 1/4 cent down, and oats 1/4 cent down. Provisions at the close were 1/4 to 1/2 cent down.

The session in the wheat pit, save for a few brief punctuations in the shape of ineffectual rallies, was one long exhibition of liquidation by holders and short selling by traders looking for prices still lower, although today's trading established a new low price record for this crop.

The news was bearish from start to finish. The market opened under the influence of indifferent cables, favorable crop reports and the annual statement of an Argentine exportable surplus of 6,000,000 bushels, December 1/4 to 1/2 cent lower at 75 1/2 to 76 1/2. Offerings were liberal and the demand liberal, and the market dropped early to 75 1/2. On profit-taking by shorts a reaction to 75 1/2 followed. There was very little cash stuff wanted, however, and as outside people showed no disposition to assume the burden of holding up prices the market sagged again. December dropped to 75 1/2 and closed 1/4 cent lower yesterday at 75 1/2.
